Backing 1 yd.

Binding 1/2 yd.

Batting 36" square

You need to have fabric ready to sew. If you prewash please do so. I do not because it is a wall hanging and I will not be washing it. I think that if you prewash your fabric you should use Best Press, or starch. This will help you when you are cutting your fabric.

You may want to cut your fabric before class. Feel free to do this. You must have a 1/2" seam allowance in order for the pieces to fit together so be sure you know how to set up your machine for this.

Come expecting to have fun and get a finished project or close to it by the end of the class.

Questions, feel free to call me.
